Workshop on HPTLC- Bio-autography Technique

Monday, 16th January 2023

A day-long [Workshop on HPTLC – Bio-autography Technique](#) was organized on 16th January 2023 at BVG Life Sciences Limited, Sagar Complex, Kasarwadi, Pune.

The main purpose of this workshop was to share knowledge about techniques and to have hands-on experience with the participants.

In accordance with one-to-one interaction and proper dissemination of the topic, the number of candidates was restricted to five in this one-day workshop from different backgrounds viz Pharmacy, Biotechnology, Microbiology and Biochemistry. All these were either PG students or PhD scholars and were learning about the HPTLC Bio-autographed technique for the first time.

The workshop included a theoretical explanation of the techniques involved and hands-on practical experience. Participants were also informed about the various applications of these techniques in different Research and QC fields.

Such training is beneficial for both, candidates/ participants as well as for the company as this is the best way to reach out to the young generation.
