Training cum workshop on Microbiology QC

Thursday-Friday, 12th – 13th January 2023

In this month two trainings were organised under the Skill Development initiative. Two days of training cum workshop on Microbiology QC was held at [BVG Life Sciences Limited](#), Sagar Complex, Kasarwadi, Pune on 12th – 13th January 2023.

A total of 36 participants applied for this training out of which 15 were shortlisted for the training on a first come basis. Participants were from Microbiology, Biotechnology and Pharmacy backgrounds; and most of them were students studying in various colleges from and around Pune.

This training cum workshop focused on quality control tests of in-process and finished goods products. It provided an overview of relevant methods in each area with providing basic technical laboratory skills; though this was assumed as a prerequisite for participation. The training consisted of presentations by subject experts and demonstrations of laboratory applications.
